**Bachelor of Science in Agricultural Business**

***Bachelor of Science  
In Agriculture***

***Agricultural Business***

***A-State Degree  
Center on the  
ASU-Beebe Campus***

## **Bachelor of Science in Agriculture**

### **Major: Agricultural Business**

Students may obtain a baccalaureate degree in agriculture majoring in agricultural business on the Beebe campus through a partnership agreement between ASU-Beebe and ASU-Jonesboro. The degree plan is outlined in a 2+2 checklist with the first two years consisting of ASU-Beebe courses leading to an associate degree. The last two years of classes are brought to the A-State Degree Center on the ASU-Beebe campus through compressed video technology, Web and Web Assisted classes, and A-State faculty

### **What is Agricultural Business?**

Agricultural Business is one of the most versatile majors offering a variety of career options ranging from farm management to business executive. Students are required to meet the same general requirements as other agriculture majors, but with a business twist: they must complete a broad-based curriculum which includes courses in computer science, accounting, management, marketing, speech, and economics. With professional training in agriculture and in business, our graduates are well prepared for production, processing and marketing sectors of the agricultural industry.

#### **Career options in Agricultural Business:**

- farm management
- financial institutions
- insurance companies
- government positions
- agri-business firms
