Honors Application Essay

In an essay of 500-800 words, please describe your approach to education, the direction you see for yourself, academically and personally, throughout your college career, and your expectations for the ASU-Beebe Honors Program. Be specific. Use examples from your studies of the past to illustrate and explain your approach to education. Also, do not think of your educational direction in strictly concrete terms, i.e. your area of study, degrees you hope to obtain, etc., but also in terms of how you see your college education affecting the kind of person, thinker, and citizen you expect to be.
