SAP POLICY,
How to Accept the Satisfactory Academic Progress Policy,

To accept ASU Beebe SAP Policy, go to Campus Connect through the ASUB website.
1. Under Current Student
2. Click on Campus Connect
LOG INTO CAMPUS CONNECT

Academic Calendar
Spring 2012
Summer 2012
1. Hover over Student Information
2. Then Financial Aid
3. Then click on Review Financial Aid
Select the year you are inquiring about, then click View Aid.
Here, listed in green, are the documents that we have received,

- Listed in red, are the documents that we still need. “Still Need” is also indicated by “ACTION REQUIRED”,

- At this point you will need to click on the SAP Policy and read it. After you have clicked on it to read it, it will turn blue.

- The SAP Policy will open in a new window, so you can close that window after you have read and understand the policy.

- Keep in mind that some things in red are student specific so not every student is required to submit the same documents, unless they are siblings.

- Please log into your personal Campus Connect to determine which documents you are required to submit.
1. Hover over Student Information,
2. Then Financial Aid,
3. Then click on Accept SAP Policy,
4. When you go back to Financial Aid then Review Financial Aid you will see the SAP Policy is now green. If it’s not, review the steps to be sure you have updated the dates.
Select the year you are accepting the policy for.
Keep in mind the policy is updated each academic year then click on submit.
If you have any questions about the policy, please call Financial Aid at 501-882-8845.

**IF YOU ARE HAVING DIFFICULTIES ACCEPTING SAP POLICY**

If when you tried to “Accept SAP policy”, and it did not give you the option “Accept SAP policy”:
Did you go to view the SAP Policy on your “review financial aid” page first? The system requires you to open and review the policy first.
*Still didn’t give you the option:*  
Then you must go into your computer’s system, and clear your browser, also called cache.  
(Since there are many different systems, you will have to use your search engine to see how to clear the cache for your particular system.)
