PRACTICAL NURSING PROGRAM

What is the Practical Nursing Program?

Practical Nursing is approximately an 11-month (day) or 18-month (night and weekend) program that prepares students for the practice of licensed practical nursing. The Arkansas State Board of Nursing (ASBN) defines Practical Nursing as "the performance for compensation of acts involving the care of the ill, injured or infirm or the delegation of certain nursing practices to other personnel as set forth in regulations established by the board under the direction of a registered professional nurse, an advanced practice nurse, a licensed physician, or a licensed dentist, which acts do not require the substantial specialized skill, judgment, and knowledge required in professional nursing."
