

Explanation of Four Semester Plan

This degree plan is a recommended plan of study which may require adjustments to fit individual situations such as semester course load, summer courses, transfer coursework, courses repeated or developmental courses required.

This plan should be used with a degree checksheet to ensure all requirements are met for completion of the degree. Students should meet with an assigned faculty advisor at least once a semester to ensure that the plan is appropriate for the desired academic path.

Transfer Plan

The Associate of Fine Arts degree is considered a transfer degree. This means that the 35 hours of core classes are designed to prepare students to complete a bachelor’s degree at a four-year institution.

The Arkansas Course Transfer System provides information about the transferability of General Education courses within Arkansas public college and universities. Students can use this website to assist with the courses of elective options based on transferability.
