

ASU-Beebe Vaccination Clinics for Employees and their family members, and Students

As students return to campus, Arkansas State University-Beebe will hold vaccination clinics for employees and their family members, who are age 12 and up, as well as ASU-Beebe students.

ASU-Beebe is partnering with ReedHutchins Pharmacy for a clinic on the Heber Springs campus and with Burrow's Drug Store for clinics on the Beebe and Searcy campuses.

Campus locations, dates and times are below:

- Heber Springs Clinic – Thursday, August 19 at 10 a.m. in the Academic Center, Room 100 at 101 River Crest Drive in Heber Springs.
- Beebe Clinic – Thursday, August 19 at 1 p.m. in the Owen Center Gymnasium at 1102 West College Street in Beebe.
- Searcy Clinic – Friday, August 20 at 10 a.m. in the Main Building, Room 117 at 1800 East Moore Avenue in Searcy.

The Pfizer vaccine will be administered at each of the clinics. All participants are asked to practice social distancing while in line and while waiting to be released by the provider after the shot. The process will take approximately 45 minutes for each participant.

Employees, their family members and students are encouraged to pre-register. Walk-ins are welcome; however, before receiving the vaccine, participants must complete the [Covid Immunization Consent Form](#), present their health insurance card, if they have insurance, and show their driver's license.

If you intend to take the vaccination at one of the ASU-Beebe clinics for employees, employees' family members, and students, please take a few minutes to fill out the **survey linked below**. The information will be collected in ASU-Beebe Human Resources and will not be used for any purpose other than facilitating this process. If you do not intend to participate or if you will seek vaccination through other means, no action is needed on your part.

Please complete the **Survey** at your earliest convenience but no later than **Wednesday, August 18, 2021 at noon**.

ASU-Beebe Chancellor Dr. Jennifer Methvin said, “As you consider if you will seek a Covid-19 vaccination, I encourage you to talk to your health care provider and to do some research, taking care to consult peer reviewed and/or otherwise reliable sources. One helpful source of information might be the [CDC's Facts about COVID-19 Vaccines](#) page. Though I highly encourage everyone to take the vaccine unless specifically directed by your health care provider to do otherwise, at this time, being vaccinated is optional for all employees and students.”

For more information, contact the ASU-Beebe Human Resources office at (501) 882-8967.
