

October 1, 2020

Dear Vanguard Community,

This week the Executive Council approved to extend the current restriction on external events until February 1, 2021. As a result, no facility request shall be approved for an event (i.e., meetings, gatherings, activities and facility use) hosted by an external (non-college) group/ individual before this date. Based on circumstances related to public safety and available resources, ASU-Beebe may determine it necessary to extend this moratorium on external events beyond the above referenced date.

This decision will not affect on-campus departments from hosting external partners, guests, or prospective students on our campuses for official college business. Our campuses are still open to the public. However, external groups/ individuals will be unable to utilize on-campus facilities for functions/ events.

Furthermore, please use this opportunity to refresh your memory on ASU-Beebe's Protocol Regarding Venues, Gatherings & Facility Use on our campuses that was originally published on July 10, 2020.
