

2018-2019 Graduation Survey

Analysis of Results

Narrative

ASU-Beebe students are given the graduation survey link when they apply for graduation. By capturing the student's perception of their experience, ASU-Beebe is better equipped to understand the student experience and align strategic priorities for the desired outcomes.

Methodology

Select Survey software is used to capture, collect and present findings from the 2018-2019 Graduation survey. The survey results are presented in an overview PDF document and can be downloaded into a CVS file for further analyses.

Findings

Of the respondents, 60% indicated they were employed either part-time or full-time while attending. Nearly 63% of respondents indicated the desire to pursue an additional educational credential or transfer to another school.

Graduates take the survey indicated that faculty were interested in their learning, were pleased with advising, availability, size, location and quality scored each of the areas 4.0 or higher on a five-point scale.

Each service area (Admissions, Bookstore, campus Wi-Fi, Canvas, Vanguard Portal, Campus safety, Career/Transfer Services, Cashier's office, Counseling services, Disability services, Financial Aid, Food Service, Intramural Sports, Learning Center, Library, Registrar's Office, Residential Life, Student activities, Student Center, Testing Services and Website) was ranged from 3.78 to 4.76 on a 5-point scale.

Survey respondents rated their overall experience 4.36 on a 5-point scale. The majority of respondents (89%) were very likely or likely to recommend ASU-Beebe or one of its campuses to friends or family.
