PCT 1207 – Patient Care Technician II   Patient Care Technology

Notes

1. A student completing both courses will be awarded the CP in Patient Care Technician
2. A student completing the CP will be able to sit for the national PCT exam
3. A student completing the CP and earning national certification is highly employable as a Patient Care Technician or Clinical Support Associate

Pharmacy Technician Science—AAS

The pharmacy technician science program enables graduates to gain basic and intermediate level competencies in obtaining employment in multiple pharmacy settings such as hospital, retail, mail order, institutional operations, compounding pharmacies and home infusion IV centers. Pharmacy technicians work under the direction of licensed pharmacists in preparing and dispensing medications and other healthcare products to patients.

The Technical Certificate program is ASHP (American Society of Heath System Pharmacists) and ACPE (Accreditation Council for Pharmacy Education) accredited. Students are academically prepared to succeed on a national Pharmacy Technician certification exam and have the option to earn certifications in IV Admixture and Compounding.

People interested in the Pharmacy Technician Program must complete all ASU-Beebe entrance requirements, have the appropriate ACT, Compass, ACCUPLACER, NEXT GEN ACCUPLACER, or SAT score(s), have a clean background check, instructor approval and complete the application into the program. Program applications may be requested from the program director or at www.asub.edu.

Nursing, Pre-Health, and Records

Registered Nursing – AAS

The Arkansas State Board of Nursing has granted full approval to the Registered Nurse Program. The Registered Nursing Program prepares individuals for the practice of Registered Nursing. To become an RN, an individual must successfully complete all pre-requisite and nursing courses as well as pass the National Council Licensure Examination (NCLEX).

The Program integrates classroom theory and practicum experiences. The students obtain clinical experience which include but are not limited to hospitals, long-term care settings, and community health settings. Following completion of all requirements, RNs may find work in a variety of situations. For example, graduates of this program are now employed in hospitals, nursing homes, ambulatory care clinics, public health departments, and various government programs.

Applicants seeking admission to the Registered Nursing Program must meet the general admissions requirements to ASU-Beebe. In addition, the applicant must have an unencumbered LPN license in the state of Arkansas (or mutual state licensure) or be certified as a Paramedic through the Arkansas Department of Health as well as be registered with the National Registry of EMTs. Applicants will be required to participate in specific pre-enrollment assessments to fulfill college or external agency requirements. In addition, certain prerequisite such as, criminal background checks, immunizations and American heart Association Cardiopulmonary Resuscitation are required.

Any person desiring more information regarding the application process for the Registered Nursing Program should contact the Nursing Program Director at (501) 207-6255. Additional information specific to the Registered Nursing program, such as conditions for re-entry, is available in the Nursing Handbook.
